##### Casino Games & Software Providers Available

We offer a complete review of the types of games you will find at BitBet Casino. Our review shows that all titles are by Bitcoin Games. While there is a limited offering of games compared to sites using multiple providers, you will find that all the casino classics are supported. You can preview these for free, but without a no deposit offer, you do have to fund an account to generate

any real money payouts. Games are reviewed and tested for fairness on a regular basis and will be instantly loaded through the web browser for fast access and complete compatibility with all operating systems.

#### Slot Games

If you are looking for innovative slots with added features, you may not be pleased with the offering at BitBetCasino. This casino only has a small array of standard slots that can be played and none of these are major titles like you would find at other sites. You can enjoy winning on some decent games like The Circus, Alpha Centauri, Money Station, and The Golden Pharaoh. Unfortunately, at the time of this review, the slots offered are rather basic and you will not find any progressive jackpot games being offered. You can use any free spins to play the supported titles for the chance to win some great payouts.

#### Blackjack Games

BitBet Casino offers almost as many blackjack games as they do slots, so if you are a fan of this classic game, you will be pleased with the selections we have reviewed. Here, you can enjoy games like Multi-Player Blackjack, Multi-Hand Blackjack, Blackjack Progressive, Blackjack Switch, and single hand blackjack. All of these games offer great betting options and you can lower the house edge by making use of basic blackjack strategy.

#### Roulette Games

After our review, we found that American and European Roulette are the only variations of the game that are featured at Casino Bit Bet. These both offer some great betting options and verified payouts. These classic versions are preferred by many players, so they will meet the needs of most members at the site. If you are seeking other versions of roulette, you will not find them in the portfolio at this site.

#### Live Dealer Games

Live dealer games have quickly become the chosen option for gamblers online. These games present an experience similar to being in a land casino and the games are played in real-time and are streamed from land casinos or casino studios. If you want the most realistic experience possible online, make sure to check out the offering of live dealer games and enjoy playing many casino classics.

When you create an account at BitBet Casino, you will find a limited offering of games due to the software that is being used. While there are some great standard casino games, you will not find this site supporting any versions of live dealer casino games at this time. There is also a mobile platform that is available and free and real money mobile casino games are supported. Since there is no app offered specifically for iOS or Android devices, the mobile platform is compatible with all mobile devices, so no download is required and players can use any tablet or smartphone to access games using the browser.

The mobile game selection is the same as with the desktop site, so you can enjoy all supported titles. You will not be able to claim the welcome bonus, free spins, or any no deposit offer if you are creating an account using your mobile device. These bonuses are only available on desktops.
