Ultra

Fortunator: Hold and Win is the game developed by renowned studio Playson. Released on 08.09.2024 it became a hit among players for its thrilling engine and fantastic artwork. This review explains all of its key characteristics that along with free test mode available on clashofslots give a great idea of experience you'll be getting.

Ultra

Fortunator: Hold and Win is a slot machine with five reels and 10 pay lines. There are no wild symbols or free spins in Ultra Fortunator: Hold and Win slot. The only thing you can benefit from is a round called Hold and Win.

The Hold and Win round in the

Ultra Fortunator slot starts as soon as the entire third reel is completely covered with diamond symbols. After that, you will receive three respins, during which the symbols that triggered the feature become sticky, and all new symbols that appear on the playing field will disappear, adding their value to the already existing prize. In addition, each new symbol that appears on the playing field will resume the number of respins up to three. The only symbol that is also sticky will be the Mystery Symbol, which will remain on the playing field until the end of the round, and at the end will display one of the four jackpots.
