Hand2Note: description and principle of operation

Hand2Note is based on the same

principles as other popular poker trackers. The history of the hands you have played is saved on the computer; the software loads this information and displays statistics on you and your opponents. But the developers of H2N went further than the competitors from Holdem Manager 3 and PokerTracker 4 and created a tool with the broadest functionality on the market.

Hand2Note is the only tracker from the big three (H2N,

HM3, and PT4) that can display positional and dynamic HUDs on tables (keep reading to learn more about this).

HUD or Heads Up Display is a unique tool that allows you to see statistics such as VPIP, PFR, 3bet, AF, etc., next to the villain's nickname in real-time.

The display of advanced statistics is implemented in the form of pop-ups.

But, since in Hand2Note, the HUD is positional and dynamic, pop-ups become unnecessary in most cases. You do not make unnecessary "body movements," do not lose concentration, and save time.

Other advantages of the tracker include the use of innovative database compression algorithms, which positively affect the speed of the software. There is also a unique system of notes in a graphical form. You no longer need to manually write any text.

According to professional players, Hand2Note is the best software to use during the game. For deep analysis of statistics and check reports, some grinders prefer to use Holdem Manager or Poker Tracker. However, this is a matter of taste. The H2N functionality is quite enough for solving these problems.

Besides analyzing the

main features of the software, this review will tell you how to use Hand2Note.

H2N

boasts a wide variety of statistical reports allowing you to identify and fix leaks in the game.

There are also unique reports that HM3 or PT4 do not have, such as "Win Rate at tables without weak players," "Win rate depending on fish count," and so on.

Flexible filters allow you to show statistics based on players' actions, positions, board textures, bet sizes, cards, and dozens of other parameters.

Decision

Analysis

Decision Analysis is an additional H2N feature available with an EDGE or PRO subscription. It allows you to evaluate the profitability of your calls (action profit) in various gaming situations.

Range Research

Tool for researching playing field trends.

For example, how the regs play on average at your stake: how loose they 3bet preflop, how often they bet on the river, where the betting range is shifted, how they bluff on average, etc.

Range Research is perhaps one of the most potent Hand2Note features.

Displaying vs Hero statistics

In the HUD, ALL statistics are given with vsHero frequencies, which means how your opponents played explicitly against you.

Last

showdown indicator

When playing at many tables, it's not always possible to pay attention to what hands the fish showed on the showdown.

The H2N developers solved this

problem by creating a tool that allows you to access such information in a few clicks.

Regular vs. Fish situations

Hand2Note has a function to identify amateurs and regulars. When this function is activated, the program will not consider the hands where the reg played against a weak opponent since pros usually play against them differently. This, the statistics will be as "clean" as possible.

Hand2Note HUD

H2N has

an innovative approach to Heads up Display. The program supports several types of HUDs:

Static

The same HUD used by all tracking tools. Stats are displayed regardless of your position at the table and the action of players in front of you.

Hand2Note static

HUD is allowed in all poker rooms where trackers are permitted.

Positional

The display

of statistics on opponents is based on your current position at the table.

For example,

in a preflop situation, when you have on BTN, the positional HUD displays only the information we need to decide in this situation; namely, the 3-bet calling frequency in the blinds against a potential open-raise. Or fold to 3bet and call to 3bet against BTN on the players to our right.

Positional HUDs are prohibited on

PokerStars.

Dynamic

Displays statistics based on the actions of opponents in hand. For

example, it shows the frequency of opening from an early position only if this opponent has made an open raise from UTG.

Dynamic HUD solves the problem of not having enough space in the table to display everything you need. Hundreds of stats in one compact block are now a reality.

The dynamic HUD supports the output of hand matrices directly to the tables based on frequencies. Thanks to this feature, there is no need to use popups in many spots.

The use of dynamic HUDS is prohibited on PokerStars.

Automatic

HUD

Independently determines the statistics that will be useful in a particular situation and dynamically displays them at the tables.

The most exciting feature of

AutoHUD — it does not require any settings in the editor since the program chooses the necessary stats automatically. It can be used together with the default display as a compliment.

If you wish, you can disable this feature in the settings.

Visualization of

frequencies and ranges

The tracker allows configuring Heads up Display and popups so that you can see heat maps of hands and a graphical display of the frequencies of opponents in different scenarios.

This facilitates the process of working with stats in real-time.

Quick Notes in H2N

The quick note system allows creating notes on your opponents with just two clicks. This feature will appeal to multi-tablers. Of course, you can create a template in advance.

H2N also allows adding the entire hand in the notes in a graphical form.

Another essential feature is that you can link notes to specific stats.

For example, suppose you find that your opponent overbets on the river with a particular range. In that case, you can link this note to the "Bet River" stat instead of placing it in the general area.

This approach makes it easier to read notes if you have many per player.

Here you can configure HUD profiles and popups, create your own stats, or integrate complex elements such as:

Preflop and postflop charts.

Multilevel tabs.

Badges.

Details about the showdown.

High performance

H2N has

the fastest hand import feature among other trackers (up to 10,000 hands per second).

Also, the hand database takes up very little hard drive space.

For example, 1 million

hands require only about 500 megabytes.

H2N also has a high response rate: popups,

charts, notes are displayed instantly after clicking. And this, although many times

more statistical data will be displayed than you are used to.

Hand2Note and

PokerStars

PokerStars has introduced restrictions on some H2N features. In all other poker rooms where trackers are allowed, the tool works without restrictions.

Hand2Note

automatically activates all restrictions, so there is no need to worry about receiving a warning from the room.

What is prohibited on PokerStars?

Positional and dynamic

HUD

Preflop and postflop charts, hand matrices, heat maps (instead, only a list of hands categories will be displayed)

Automatic color labels on players

Badges

Sobre a Alegria e Amizade Irlandesa: Uma Experiência grêmio novorizontino x chapecoense palpites Galway

Quando se trata de amizade e diversão, considero os irlandeses acima dos padrões de pessoas de outros países. Então, quando o senhor do balcão de aluguel de carros do aeroporto de

Shannon foi apenas civil, fiquei desapontado - não apenas com ele, mas talvez com seu país também. Eu me senti decepcionado. Eu queria mais. Em algum nível, eu queria ver um furioso stepdance abaixo do balcão, mesmo enquanto grêmio novorizontino x chapecoense palpites metade superior estática tentava me vender cobertura de seguro extra. Mas nada. Onde estava o charme desse homem?

Não acho que você deva usar essa palavra se não é irlandês, mas pergunto novamente: onde estava seu charme? Ele era irlandês, então precisava me dar mais do que apenas eficiência simples. Aprendi a apreciar que essa bobagem surge de mim me inscrever a um estereótipo nacional tão barato quanto qualquer outro, mas pediria que haja preconceitos piores para cultivar.

De qualquer forma, logo estava grêmio novorizontino x chapecoense palpites Galway, onde todas as minhas expectativas, vagas ou não, foram atendidas. O charme estava grêmio novorizontino x chapecoense palpites evidência grêmio novorizontino x chapecoense palpites todos os lugares. Mais charme do que você poderia sacudir um taco de hurling. Talvez mais charme do que é estritamente bom para você. Havia o charme de ontem, na forma de cores de Galway flutuando grêmio novorizontino x chapecoense palpites todos os lugares após grêmio novorizontino x chapecoense palpites participação na final do Campeonato Irlandês de Futebol. Sim, havia uma tristeza abatida sobre as bandeiras, pois Galway perdeu para Armagh - mas não importa, porque a próxima orgia de charme estava chegando. Pois é a semana das corridas de Galway.

Estive aqui por alguns dias para ver um amigo. Não sou muito fã de corridas, mas ele é muito fã de corridas, então nós fomos, juntamente com quem parecia ser a maior parte do resto da Irlanda e muitos de outros lugares também. Milhares de homens e mulheres - parecia igualmente dividido, a mim - grêmio novorizontino x chapecoense palpites uma reunião massiva e aparentemente sem classe de natureza absurdamente boa.

Todos rindo, gemendo, bebendo, comendo e gritando como um. Ondas persistentes de chuva varreram sobre, como se tivessem sido ordenadas para manter a exuberância grêmio novorizontino x chapecoense palpites níveis seguros. Pouco tempo depois, eu estava convencido de que, neste lunes, no primeiro dia do festival de corridas de Galway, não havia melhor lugar para estar grêmio novorizontino x chapecoense palpites todo o mundo. Foi tão bom.

Uma coisa grêmio novorizontino x chapecoense palpites particular aconteceu, três palavras ditas para mim novamente e novamente, que encontrei fascinante no início e finalmente emocionante além da medição. Muitas pessoas foram gentis o suficiente para me dar boas-vindas: alguns por reconhecê-lo; outros após serem apresentados a mim; uns poucos por ouvir meu sotaque enquanto me desculpava passando por eles no meio do barulho.

E todos disseram, com feeling: "Seja bem-vindo a Galway." Ouvi isso tantas vezes que cheguei a me perguntar se houve uma campanha do conselho de turismo encorajando os residentes a estender este
