How much would my bets cost?

A brief explanation is laid out in the table below. The purpose is to show how much, in total, your outlay would be if you were using £10 stakes, for example, on a bet.

Stake £5 points £10 points £20 points 0.5 points £2.50 £5.00 £10.00 0.5 points each way £5.00
£10.00 £20.00 1 point £5.00 £10.00 £20.00 1 point each way £10.00 £20.00 £40.00 2 points
£10.00 £20.00 £40.00 2 points each way £20.00 £40.00 £80.00

It is imperative that you decide how many points you will use before you start betting if you decide to use a points system. By changing your point value half way through the month will hugely distort your profit/loss as you could win, say, 10 bets whilst using £0.50 points. If you then lose 10 bets with £2.50 points you will ultimately not be in profit for that month.

We would recommend that once your betting bank increases by 50% of the starting points, you increase your point value by 50%.
