So far you saw that when it comes to playing roulette at 888 Casino, diversity is the key feature and that you always have multiple options and possibilities.

Firstly, the games are available in instant-play and download mode. This means that you can either play the games directly in your browser, after accessing 888 Casino's website, or you can download a platform that will allow you to play from your desktop. More than a dozen bonus and promo offers are available at the casino and most of them can also be used on the roulette games. The Welcome Package

No-deposit bonus:

Up to 88 Free Spins First-deposit bonus: 100% up to £100 Wagering requirements: 30x bonus amount Bonus validity: 30 days Roulette wagering contribution: 20%

The welcome

bonus package at 888 Casino is truly a warm welcome for all new players. Every new player can earn up to £88 of free play without even having to deposit a single penny. You spin the wheel to determine the size of your free gift. The maximum amount which you can win on any game other than jackpots is limited to the free play won. After that, you can claim the regular welcome bonus at your first deposit, which can be up to £100. The wagering requirements are 30 times the winnings amount, which means that if you've won £10, you would need to wager £300 before you can withdraw. The roulette wagering contribution for this bonus is 20%.

If it sounds unbelievable to you, here is

the scheme explained one more time: in addition to the no-deposit offer, new players are also entitled to a 100% match up bonus of up to £100 on their first deposit. This means that 888 would double any amount of money up to £100. So if you deposit £50, you'll be able to play with £100. Wagering on all games does contribute towards the wagering requirements, which in this case are 30x the bonus amount, but different games have different wagering contributions. Roulette contributes 20%, which means that if you wager £50 on roulette, that'll be £10 towards the requirements, whereas live roulette contributes 10%.

Special Promotion for Live Casino Roulette

At 888, there's

one roulette promotion that is offered only to players at the live casino. It is a very interesting and unique offer. Namely, you can win £8 every time the ball hits 8. This offer is available between 8 and 9 p.m. Every registered player that places a bet of minimum £8 at the Live Casino Roulette table in 888 Private Room is entitled to the bonus, provided that the winning number in that round was 8.

The wagering requirements

are the same, namely, the amount won has to be wagered at least 30 times before it can be withdrawn. Trust me when I say that there's no other casino in the UK which offers a similar promotion. Therefore, if either way your roulette variation of choice is the live-dealer one, why not do it with the possibility of winning something extra?

Other

Bonus Opportunities

We've briefly mentioned the other bonus opportunities available at 888 Casino. There are daily offers for instant prizes, bonus spins, prize draws and much more. This diversified promotional programme is very similar to many other top gambling sites. However, every wager at 888 Casino earns you comp points which can be later converted and used on any game. With the VIP scheme, you could get additional bonuses and promotions, as well as other benefits, such as loyalty rewards. The VIP scheme has three levels – regular, gold and platinum.

888 – Great Choice for All Types of Players

To sum things up, it is clear that 888 casino is a great choice for all roulette fans, regardless of their preferences in terms of the roulette variant (American, European, French), the state of their bankroll and whether they are high or low rollers, whether they prefer classic online roulette or live roulette. At 888 there's truly something for everybody, there's a great game diversity (not only when it comes to roulette) and there's a wide range of different bonus opportunities, many of them available to roulette players. Finally, 888 is compatible with all major types of devices and operating systems.
