Short-Deck Poker: How to Play 6+ Hold'em (Official Rules)

What is Short Deck

Poker?

Short-deck poker (also known as six-plus hold'em) is a new variation of traditional Texas hold'em that mostly follows the same rules albeit with a significant difference.

Short-deck poker uses a smaller 36-card deck rather than the full 52-card deck.

Most first heard of short-deck poker after it was introduced among the mix in the high-stakes cash games in Macau.

Here we go over the poker rules for Short Deck Poker.

How to Play Poker for Beginners Check out the rules and basic strategy to all the popular poker formats [Click Here](#)

Short-Deck Poker Rules

Before we discover how to

play short-deck poker, let's see how to get to the 36-card deck needed to play a game of 6+ hold'em.

The 36-card deck in use in poker short deck is created by removing the 2xs, 3xs, 4xs, and 5xs from the deck (16 cards).

That leaves the 6xs up through the Kxs as well as the Axs.

What about the Aces?

As in regular hold'em, in short-deck poker the aces still count as high or low when making straights.

The lowest possible straight in

a game of short-deck poker is Ax9x8x7x6x (think of the ace as essentially replacing the missing 5x).

Poker short-deck is played similarly to regular hold'em.

Each player

receive two hole cards and use them in combination with five community cards to create the best possible hand.

A game of short-deck poker features four streets of betting:

Pre-flop Flop Turn River

However, there are some differences in the poker

short-deck poker that you should know about before playing.

## Short-Deck Poker Hand

### Rankings

Short-deck poker can be played according to the exact same rules as regular Texas Hold'em.

The betting can be fixed-limit or no-limit (although most often the game is played no-limit), and the same hand rankings can be used as follows:

### Hand Ranking

Hand Name    Poker Hand    Lowest High card    Kx6x9x8xQx    One pair    KK5x8xQx    Two pair    KK66Qx    Three-of-a-kind    KKK6Qx    Straight    A6789    Flush    KJ1069x    Full house    KKK66    Four-of-a-kind    KKKK6x    Straight flush    A6789    Highest Royal flush    10JQKA

For more info about the hand rankings in poker and which hand wins, visit our guide to poker hands.

### Alternative Short-Deck Hand Rankings

Short-deck poker is

played often employing a different hand ranking system. Here are the alternate hand rankings for short-deck poker (note the differences in bold):

### Hand Ranking

Hand Name    Poker Hand    Lowest High card    Kx6x9x8xQx    One pair    KK5x8xQx    Two pair    **KK66Qx**    Straight    A6789    Three of a kind    **KKK6Qx**    Full house    **KKK66**    Flush    KJ1069x    Four of a kind    **KKKK6x**    Straight flush    A6789    Highest Royal flush    10JQKA

As you can

see, following these alternate poker short deck hand rankings a three-of-a-kind beats a straight (instead of vice-versa), and a flush beats a full house (instead of vice-versa).

### Why a Different Hand Rankings?

These changes were introduced because

the removal of cards from the standard deck alter the probabilities of making certain hands.

For example, with only nine suited cards (instead of 13), a flush is harder to make in short-deck poker than in regular hold'em.

### Six-Plus Hold'em Variation — The Deal (Fifth Street)

One other popular variation often introduced in six-plus hold'em has to do with the way the river is dealt.

The game can be played according to the same procedure followed in regular hold'em, with the community cards coming in the same way — flop (three cards), turn (one card), and river (one card) — and betting rounds after each street.

More often, though, instead of a river card being dealt to complete a five-card board, players are each dealt a third hole card instead.

Players then make

their five-card poker hands by using exactly two of their three hole cards and three of the four community cards.

The building of hands resembles the procedure followed in

Omaha poker where players must use two of their four hole cards plus three board cards to make a five-card poker hand.

### Short-Deck Poker Basic Strategy

As you might imagine,

the removal of low cards and use of the 36-card deck makes it more likely to make higher value hands, a change that tends to introduce more action.

You should adjust

your thinking about relative hand values from what they are used to in regular

hold'em.

The smaller deck makes it easier to make two-pair hands, which means a hand like top pair-top kicker is no longer as strong in six-plus hold'em as it is in regular hold'em.

Straights and full houses are also easier to make in six-plus hold'em than in the regular version of the game (a reason for the alternate hand rankings).

The odds of

hitting certain draws change, too, in short-deck poker.

Just to highlight one example,

filling an open-ended straight draw becomes more likely in short-deck poker.

While

you're still looking for the same eight outs there are fewer total cards in the deck, thus increasing the percentage you'll make your straight.

The smaller deck also affects

the likelihood of being dealt certain hands. [ ]You're more than twice as likely to get pocket aces in short-deck poker than you are in regular hold'em!

Finally, players

being dealt a third hole card instead of there being a fifth community card obviously affects hand values as well, making it even more likely that players improve their hands — yet another factor that has to be taken into account when calculating odds and considering your final-round betting strategy.

Conclusion

Short-deck poker / 6+ hold'em

introduces several exciting twists to traditional Texas hold'em, creating an action-filled alternative that many players are finding especially enjoyable to play.

The changes from regular hold'em aren't terribly complicated, making it easy to new players to learn and play right away.

Short-Deck Poker FAQ

How do you play

Short-Deck Poker? A game of short-deck poker follows the same rules and gameplay as Texas hold'em poker. The players receive two hole cards and they need to combine them with five community cards to create the best possible five-card hand. Short-deck poker, however: Uses a 36-card deck rather than the full 52-card deck

Ranks the hands

differently compared to Texas hold'em All the details to know before playing a game of short-deck poker are in this article. Why is short-deck poker so popular? The game of short-deck poker, or six-plus hold'em became famous at the high-stakes games in Macau. Due to the smaller deck, the game makes it more probably for players to hit high-value combinations. Where is short-deck poker played? You can play short-deck poker live at most poker festivals. If you are looking for games of short-deck poker online, check out the poker sites listed on this page. What's the best short-deck poker strategy? The removal of some low-value cards from the deck changes the game's basic strategy and the value of different poker hands. To understand ranges and odds in short-deck poker, have a look at this article.

Must Have Rooms

Home to the biggest tournaments online, these

rooms also have the largest player base, great bonuses, tons of action and the best software. If you don't have accounts here, you are missing out on the best that online poker has to offer.

## **Apple infringe las nuevas leyes de la UE que buscan promover la competencia en la tienda de aplicaciones**

La Comisión Europea ha encontrado que Apple ha infringido las nuevas leyes de la UE diseñadas para permitir que las pequeñas empresas compitan y permitir que los consumidores encuentren aplicaciones más baratas y alternativas en la tienda de aplicaciones de la empresa tecnológica.

La Comisión Europea, que también actúa como reguladora antimonopolio y de tecnología de la UE, dijo que había enviado sus conclusiones preliminares a Apple después de una investigación lanzada en marzo.

### **Las reglas de participación de Apple no cumplen con la nueva ley digital de la UE**

En sus conclusiones preliminares, contra las que Apple puede apelar, la Comisión Europea dijo que creía que las reglas de participación de Apple no cumplían con la Ley de Mercados Digitales (DMA) "ya que impiden que los desarrolladores de aplicaciones dirijan a los consumidores a canales alternativos para ofertas y contenido de forma gratuita".

Además, la comisión ha iniciado un nuevo procedimiento de incumplimiento contra Apple por preocupaciones de que los nuevos términos de contrato de la empresa con los desarrolladores de aplicaciones de terceros también fallen cortos en los requisitos de la DMA.

Es la tercera investigación de incumplimiento abierta por la comisión desde que entraron en vigor las leyes el año pasado.

### **La comisión examina los cargos de Apple**

Como parte de la investigación, la comisión está examinando el cargo de 0,50 céntimos, o "tarifa básica de tecnología", que Apple cobra cada vez que se instala una aplicación de un desarrollador en un teléfono.

Las acusaciones de que Apple está infringiendo la ley de la UE son las primeras contra una empresa tecnológica bajo la DMA, legislación introducida el año pasado para garantizar que seis plataformas en línea designadas "muy grandes" incluyendo Google, Amazon, Meta y ByteDance (TikTok) compitan equitativamente.

La investigación se produce tres meses después de que la comisión abriera su primera investigación sobre el enfoque de Apple hacia los proveedores de aplicaciones para teléfonos.
